Longbiao CHEN

Academic Curriculum Vitae | Ph.D.

longbiaochen@acm.org | longbiao.crowdsensing.cn

ORCID: 0000-0002-4554-6782

Research Profile

Research in crowd intelligence, embodied intelligence, spatial computing, ubiquitous computing and domain-specific large language models, with applications in urban governance, public safety, robotic services and healthcare. Ph.D. degrees from Zhejiang University and Sorbonne University.

Education

2015.11-2018.07 Ph.D., Computer Science, Sorbonne University, France. Advisors: Daqing Zhang and Thi-Mai-Trang Nguyen.

2010.09-2016.09 Ph.D., Computer Science and Technology, Zhejiang University, China. Advisor: Gang Pan.

2006.09-2010.07 B.E., Computer Science and Technology, Chu Kochen Honors College, Zhejiang University, China.

Academic and Research Experience

2021.08 Promoted to Associate Professor, Department of Computer Science and Technology, School of Informatics, Xiamen University (former appointment).

2018.08-2021.07 Lecturer, Department of Computer Science, School of Informatics, Xiamen University, China.

2016.10-2018.07 Assistant Researcher, Networks and Multimedia Department, Institut Mines-Telecom, France.

Selected Honors and Awards

- 2022: ACM SIGSPATIAL China Rising Star Award.

- 2015 and 2016: ACM UbiComp Honorable Mention Awards.

- 2018: First Prize, Fujian Provincial Science and Technology Progress Award, for multi-source urban transportation sensing and intelligent computing (ranked ninth).

- Huawei Cloud Pioneer Teacher Award.

Academic Service

- Editor-in-Chief, Big Data Research; editorial board service for Vehicles, Frontiers in Sustainable Cities and JILSA.

- Executive committee member, ACM SIGSPATIAL China Chapter; executive committee member, CCF Ubiquitous Computing Committee.

- CCF YOCSEF Xiamen: Chair (2021), Vice Chair (2020), Academic Secretary (2019).

- Social Activity Chair, ACM UbiComp 2021; Industry Chair, AIoTSys 2025.

- Member, BRICS Young Scientist Forum and moderator of its AI session (2022); program committee service for AAAI and IJCAI.

Edited Volume

Co-editor: Spatial Data and Intelligence, SpatialDI 2025 proceedings, LNCS 15838, Springer. DOI.

Selected Research Grants as Principal Investigator

2022-2025 NSFC General Program, Principal Investigator.

2019-2021 NSFC Young Scientists Fund, Principal Investigator.

2019-2021 National defense basic research project, Principal Investigator.

2020-2021 National high-resolution Earth observation project, Principal Investigator.

2018-2021 Natural Science Foundation of Fujian Province, General Program, Principal Investigator.

2020-2021 Xiamen industry-university-research collaborative innovation project, Principal Investigator.

Teaching and Mentoring

Teaching includes software engineering, pattern recognition, software architecture and application development, human-computer interaction, and data mining. Led a Ministry of Education “Smart Base” industry-education collaborative program and supervised student research and innovation competitions.
